RELAY PANELS

EP² provides complete power management systems for commercial and utility industries including control enclosures, protective relay panels, and control systems for power generation, transmission, and distribution.

INTEGRATED CONTROL SYSTEMS

EP² experience and capabilities allow us to supply our customers with complete "drop-in-place" modular control systems that are ready to fulfill the customer's requirements upon delivery.

RENEWABLE ENERGY PRODUCTS

EP² provides relay panels and complete control enclosures to wind, solar, geothermal and other renewable energy facilities.
